

Received 4-20-09

Dear Health Board Members,

I oppose the new solid fuel regulations proposal. Missoula county is large with many variations in population density & elevation etc.. A broad county-wide "one size fits all" set of regulations doesn't serve the citizens of Missoula county well.

Thanks

Dear County Commissioners

specifically Jean Curtis (since you sit on both boards)

I recently attended a meeting in Frenchtown concerning new solid fuel regulations in Missoula County. Also last year I attended several meetings concerning new streamside setback regulations. Overwhelming the citizens at these meetings oppose the new proposals. The citizens and taxpayers seem to all want the same thing..... The rights that they already have. Thank you for your consideration

Zackery Morris, Petty Cr.
