

# Are You at a Healthy Weight?

Find the column closest to your weight in pounds. Read down the column until it crosses the row that most closely matches your height in feet and inches. That number is your Body Mass Index (BMI). The healthiest BMI range for adults is 18 to 24.

  Severely Obese

## For a healthy weight, try these simple tips:

- Prepare more meals at home
- Watch less TV
- Select whole grain breads, pastas and cereals
- Right-size your portions
- Engage in more physical activity—at least 30 minutes a day
- Enjoy more fruits & vegetables
- Choose water over sweetened beverages (drinks with added sugars)
- Breastfeed your baby
- Choose low-fat or non-fat dairy
- Balance physical activity and calories to manage weight
