

The Board of County Commissioners approved the format of their meeting minutes as summary minutes. While in the process of moving to audio/summary minutes with time stamps, the Commissioners' Office will provide summary minutes and a Windows Media Player audio file online. **The time stamps noted on the document will not work.** They can, however, serve as an approximate counter for the Windows Media Player file (convert the time stamp to a counter by subtraction). For example, the time stamp may read 1:29:38 PM, which would be 0 minutes on the Windows Media Player counter. The time stamp next to the item you want to listen to may read 2:53:56, which would be about 1:24 on the counter (2:53 minus 1:29). You can then pull the "seek" button on the Windows Media Player to the approximate time).
