MISSOULA COUNTY DEVELOPMENT PARK WELCOMES NEW IMPROVEMENTS IN PUBLIC SAFETY

Missoula County Commissioners will make a trip to the Missoula Development Park on Wednesday, November 16th at 11:30 a.m. to cut the ribbon on a new roundabout at Airway Boulevard and Expressway. The Commissioners will also help unveil a new fire truck for Rural Fire Station #2. The roundabout and a portion of the fire truck were funded by tax increment financing dollars generated within the district with no increase in property taxes.

“These projects are perfect examples of local dollars supporting local infrastructure and enhancing public safety,” noted Commissioner Jean Curtiss who will speak at the event on Wednesday. Commissioner Curtiss will be joined by Missoula Development Park Board Chair Chuck Keegan and Missoula Economic Partnership CEO Jim Bowman.

The Commissioners will travel to the roundabout courtesy of Mountain Line and interested participants are welcome to join them. Meet at the Mountain Line Transfer Center at 11:15 a.m. Space is limited.
