“THE BIG FIX” IS COMING TO MISSOULA ANIMAL CONTROL

Missoula Animal Control is offering low cost spay/neuter clinics and rabies vaccinations through the month of March through its “Big Fix” program. The program, in its 3rd year, hopes to reach as many pets as possible.

“The Big Fix’ provides low cost services for pet owners who, for whatever reason, haven’t had the opportunity to spay or neuter their pets,” says Shelter Attendant Erin Horner. “Overpopulation of pets is a significant problem in our community. We’re offering these services to help solve that problem and to ensure the pets in our community are treated humanely.”

“The Big Fix” also features the “Mom’s Last Litter” program which offers free spay surgeries for any female cat or dog that is brought to the shelter with her litter. The animal is returned to the owner and her puppies or kittens will be placed for adoption.

Please call 406-541-7387 to make an appointment.
