

TABLE OF CONTENTS

LIST OF ACRONYMS	i
LIST OF APPENDICES AND ATTACHMENTS	i
LIST OF FIGURES	ii
LIST OF TABLES	iii
1.0 INTRODUCTION	1
1.1 PURPOSE	
1.2 LIMITATIONS	
1.3 BACKGROUND	
2.0 LITERATURE REVIEW	4
2.1 HISTORICAL OUTBREAKS OF GROUNDWATER BORNE DISEASE	
2.2 LOCAL STUDIES RELATED TO SEPTIC SYSTEMS AND GROUNDWATER	
2.3 OTHER RELATED STUDIES	
3.0 SEPTIC SYSTEM CHARACTERISTICS	13
3.1 TYPES OF SEPTIC SYSTEMS AND TREATMENT CAPABILITIES	
3.2 TYPICAL CHARACTERISTICS OF SEPTIC TANK EFFLUENT	
3.3 FATE AND TRANSPORT OF SEPTIC SYSTEM CONTAMINANTS	
4.0 STUDY METHODS	33
4.1 DELINEATION OF STUDY AREAS	
4.2 ESTABLISHMENT OF BACKGROUND NITRATE LEVEL	
4.3 USE OF EXISTING DATA BASES	
4.4 DEVELOPMENT OF PROJECT DATABASES	
4.5 COMMERCIAL LAND USE	
4.6 SEPTIC SYSTEM DENSITY MAPPING	
4.7 CUMULATIVE IMPACTS/NITROGEN LOADING	
4.8 DETERMINATION OF SEPTIC SYSTEM TYPE	
4.9 PERCENTAGE OF SEPTIC SYSTEMS REPLACED SINCE 1967	4.10
REGIONAL GROUNDWATER SAMPLING	
4.10.1 SELECTION OF SAMPLING LOCATIONS	
4.10.2 EVALUATION OF NITRATE TRENDS	
4.10.3 NITRATE-NITROGEN SAMPLING	
4.10.4 BACTERIA SAMPLING	
4.10.5 VOLATILE ORGANIC COMPOUND SAMPLING	

- 4.11 GROUNDWATER FLOW DIRECTION
- 4.12 LOCATIONS OF PUBLIC AND PRIVATE WELLS
- 4.13 EVALUATION OF HYDROGEOLOGIC DATA USING EPA DRASTIC METHOD

5.0 RESULTS FOR UNSEWERED AREAS 50

- 5.1 PERCENTAGE OF COMMERCIAL UNITS
- 5.2 SEPTIC SYSTEM DENSITY MAPPING
- 5.3 CUMULATIVE IMPACTS/NITROGEN LOADING
- 5.4 TYPES OF SEPTIC SYSTEMS IN UNSEWERED AREAS
- 5.5 PERCENTAGE OF SEPTIC SYSTEMS REPLACED SINCE 1967
- 5.6 CURRENT GROUNDWATER QUALITY

- 5.6.1 NITRATE-N SAMPLING RESULTS
- 5.6.2 COLIFORM BACTERIA SAMPLING RESULTS
- 5.6.3 VOC SAMPLING RESULTS

- 5.7 GROUNDWATER FLOW PATTERNS IN UNSEWERED AREAS
- 5.8 LOCATIONS OF PUBLIC AND PRIVATE WELLS
- 5.9 DRASTIC ANALYSIS/HYDROGEOLOGY IN UNSEWERED AREAS

6.0 FINAL RANKING OF UNSEWERED AREAS 73

- 6.1 FINAL ORDINAL RANKING FOR UNSEWERED AREAS
- 6.3 FINAL ORDINAL RANKING OF HIGHEST DENSITY QUARTER SECTIONS

7.0 SUMMARY BY AREA

LITERATURE CITED

LIST OF ACRONYMS

EPA:	United States Environmental Protection Agency
GIS:	Geographical Information System
GPS:	Global Positioning System
DEQ:	Montana Department of Environmental Quality
DPHHS:	Montana Department of Health and Human Services
DRASTIC:	See section 4.13
District:	Missoula Valley Water Quality District
MCCHD:	Missoula City-County Health Department
MWTPSA:	Missoula Waste Water Treatment Plant Service Area
OCD:	Missoula County Office of Community Development
PLSS:	Public Land Survey System
QA/QC:	Quality Assurance and Quality Control
RSID:	Rural Special Improvement District
SEWPER:	Septic System Permit Database, Missoula County
USDA:	United States Department of Agriculture
USGS:	United States Geological Survey
VOC:	Volatile Organic Compound
WWTF:	Missoula Waste Water Treatment Facilities

LIST OF APPENDICES AND ATTACHMENTS

APPENDICES

- Appendix A: Quarterly nitrate and bacteria sampling data
- Appendix B: Nitrate data obtained for public supply wells
- Appendix C: QA/QC Results for split samples

ATTACHMENTS

- Attachment A: Map of Septic system density
- Attachment B: Map of nitrate sampling locations and results
- Attachment C: Map of bacteria sampling locations and results
- Attachment D: Map of well locations
- Attachment E: Map of DRASTIC aquifer sensitivity values
- Attachment F: Map of high density quarter sections

LIST OF FIGURES

- FIGURE 1: Fluid layers in an operating septic tank.
- FIGURE 2: Schematics of a typical cesspool and seepage pit
- FIGURE 3: Schematic of a septic tank and drainfield system
- FIGURE 4: Intermittent sand filter system
- FIGURE 5: Elevated sand mound cross section
- FIGURE 6: Aerobic septic tank system
- FIGURE 7: Form and fate of nitrogen in the subsurface
- FIGURE 8: Cross section showing instrumentation used for the Carrying Capacity Study (from Woessner et al., 1995)
- FIGURE 9: Categories of septic systems in Water Quality District
- FIGURE 10: Sewer Connections and septic permits, 1990-1995
- FIGURE 11: Sewage loading by area
- FIGURE 12: Computer modeled potentiometric map, Westview Park
- FIGURE 13: Regional groundwater flow for the Mullan Road area
- FIGURE 14: Regional groundwater flow in the East Reserve Street area
- FIGURE 15: Regional groundwater flow in East Missoula and West Riverside

LIST OF TABLES

- TABLE 1: Outbreaks of gastroenteritis attributed to groundwater-borne Norwalk-like Virus
- TABLE 2: Water quality data for Rattlesnake Creek between the Trailhead Bridge and the Front Street Bridge (Juday and Keller, 1978)
- TABLE 3: Characteristics of typical residential waste water
- TABLE 4: Characteristics of septic tank effluent in Missoula
- TABLE 5: Common water borne diseases and causative agents that may be present in septic system effluent
- TABLE 6: Human pathogens that may be transported through the unsaturated zone to groundwater
- TABLE 7: Environmental factors affecting survival of enteric bacteria in soil
- TABLE 8: Survival times of pathogenic organisms
- TABLE 9: Septic system treatment data, Missoula north site
- TABLE 10: Data obtained from other sources
- TABLE 11: Assigned weights for DRASTIC factors
- TABLE 12: Original and modified DRASTIC ranges and ratings for depth to groundwater
- TABLE 13: Ranges and ratings for soils using DRASTIC
- TABLE 14: DRASTIC rating values for surface geology (vadose zone)
- TABLE 15: Hydraulic conductivity ranges and ratings for DRASTIC
- TABLE 16: Percentage of commercial units in unsewered areas
- TABLE 17: Sewer status of improved parcels and living units in WQD

- TABLE 18: Public sewer connections and septic system permits between 1990 and 1995
- TABLE 19: Septic system densities in unsewered areas
- TABLE 20: Cumulative impacts and nitrate loading in unsewered areas
- TABLE 21: Percentage of drainfields and seepage pits in unsewered areas
- TABLE 22: Percentage of replacement septic systems in unsewered areas
- TABLE 23: Results of QA/QC for nitrate standards
- TABLE 24: Results of QA/QC for duplicate samples
- TABLE 25: Results of repeat sampling for nitrate
- TABLE 26: Average nitrate concentrations in unsewered areas
- TABLE 27: Bacterial sampling results for private wells
- TABLE 28: Well densities in unsewered areas
- TABLE 29: Average DRASTIC values and final ranking for unsewered areas
- TABLE 30: Final ordinal ranking of unsewered areas
- TABLE 31: Final ordinal ranking of highest density quarter sections
